International American School of Warsaw

— ADDITIONAL EDUCATION

Full Stack Web Development Course
2021 - 2022 | GoIT

Online course full-stack web development. Two abstracts for self-study, two online lessons + one practical homework assignment every week. Course consists out of four blocks. 1: HTML | CSS. 2: Java Script. 3: React.js + Redux. 4: Node.js. After completion of each block, students were assigned in teams and worked on a group project. For each project a team leader and a SCRUM master were selected. I was performing as a team leader on the first major project.
